### SOLIDWORKS (3D)

3D model, drafting

## PROJECTS

### CONNECT, A music webpage

It is a frontend based project using HTML ,CSS and JavaScript

Connect is a music streaming web app that offers NCS tracks with a user-friendly interface. It showcases curated songs with cover images and durations. Users can play, pause, skip tracks, and seek through the timeline using intuitive controls, including a progress bar.

## LIST-VIEW, Webpage

It is a frontend based project using HTML ,CSS ,JavaScript and React-JS.

The Todo App is a user-friendly web application for managing tasks and todos. Users can add new users, create todo items, and view their lists. The app communicates with a backend server for data storage and retrieval.
